

Assessment according to TISAX

The main objective of LEONHARD KURZ Stiftung & Co. KG in the area of information security, is to maintain the confidentiality, integrity and availability of information through the operation of an information security management system (ISMS) using a risk management process and to provide interested parties, especially customers, with confidence that risks are being managed appropriately.

Assessed according to TISAX

Since 2019, the security level of LEONHARD KURZ Stiftung & Co. KG has also been assessed according to VDA/ISA TISAX (Trusted Information Security Assessment Exchange) with protection level "Info very high" and "Proto parts" (Assessment Level 3).

TISAX serves as a cross-company recognition of information security assessment results in the automotive industry. The regular audit is carried out according to internationally recognized industry-wide standards based on ISO/IEC 27001, extended to include data protection and industry-specific requirements of the automotive industry.

The results of the assessment of LEONHARD KURZ Stiftung & Co. KG, which was conducted by an independent audit provider, can be viewed using the following link:
