

# Brilliant Automotive Smart Surfaces

## Crystal Design Luxury

SWAROVSKI

The future is transforming automotive interiors into individual comfort zones. Together with our strong partner Swarovski, we are taking up the trend towards the luxurious – in a brilliant symbiosis of design and functionality: Crystal Design Luxury.

### Futuristic luxury:

Backlighting and touch operation combine smart function and design in an unprecedented way: A futuristic 3D component created using the Print Mold Design (PMD) process.

### Sustainable:

Sophisticated innovative Shy Tech designs with high performance surfaces, recyclable components, 30% renewables in the decoration.

### Premium crystals:

Imposing, handcrafted Swarovski crystals with patented touch functionality create a breath-taking ambience unit – dark, light or lounge.
